

## Leaving a Job Scramble

**Introduction:** The "Scramble Game" can be used to reinforce the words and principles involved in appropriately leaving a job.

**Materials:** Prepare two sets of scrambled words and copy on colored index cards, two different colors, i.e., yellow and blue. Use the attached template to prepare copies and cut them apart.

Some scrambled words (unscrambled) are: yeeempol (employee), edgsrine (resigned), bseljos (jobless), ertlte (letter), ectoni (notice), revirpsuso (supervisor), drife (fired), ttissdfcnoiasia (dissatisfaction), kirs (risk), ptunooesitirp (opportunities), oyemn (money), tqgiinut (quitting), txie wietrnvei (exit interview), pelrmoye (employer). Other words may be added or deleted to suit the time allowed.

### Directions:

1. Divide the students into two groups.
2. Have the "yellow" group sit at one table and give them the yellow cards (face down). Have the "blue" group sit at another table and give them the blue cards (face down).
3. Explain they all have to unscramble the words on the cards at the same time, working within their groups. Both groups have the exact same words scrambled the exact same way. Tell them the words are all work related or job related.
4. Before they begin have the students' select one student to record their words once they are unscrambled.
5. All words must be spelled correctly.
6. Give them three minutes to unscramble all of the words.
