## Making Your Own Goals

**Introduction:** What are your academic goals? Graduation from high school? A two-year associate degree? Specialized training?

**Directions:** Set your short and long term academic goals by answering the following questions.

A. Identify an academic goal you have after high school. Example: Attain an associate degree in accounting from Helena College of Technology by July 1, 2015.

Identify steps or short-term goals needed to achieve the above goal. Example:

Step 1. Attain my high school diploma from Prospector High School by June 15, 2013.

Step 2. Complete the Federal Financial Aid Student Assistance form by January 1, 2013.

- 1.
- 2.
- 3.
- 4.
- 5.

Identify possible roadblocks for achieving this goal. Example: The calculus class I need will not be offered next semester. Alternatives are to take the class next semester or through a correspondence course.

B. Identify an academic goal you have for this school year.

Identify steps or short-term goals needed to achieve the above goal.

- 1.
- 2.
- 3.
- 4.
- 5.

Identify possible roadblocks for achieving this goal.

C. Identify an academic goal you have for this semester

Identify steps or short-term goals needed to achieve the above goal.

- 1.
- 2.
- 3.
- 4.
- 5.

Identify possible roadblocks for achieving this goal.

D. Identify an academic goal you have for this week or next week.

Identify steps or short-term goals needed to achieve the above goal.

- 1.
- 2.
- 3.
- 4.
- 5.

Identify possible roadblocks for achieving this goal.
