

Dicey

Introduction: In pairs or groups of three, students will volunteer personal information about each other using dice as a prompt.

Materials: Pair of numbered dice

Time Frame: 10 to 15 minutes

Group Size: 2 or 3 people per group

Directions:

1. Place students in either pairs or groups of three.
2. Explain the activity is a bit of fun to accelerate the process of getting to know each other. Throw the dice and then call out the number shown on the dice from 2 to 12.
3. Students then discuss with their partner or group members a piece of information about themselves which corresponds with the number shown on the dice (for example, if total of dice is 2, say I had two eggs for breakfast, when I am older I hope to have 5 kids, when I was 12 I broke my arm).
4. Encourage class to be aware of their attitude when responding.

Debrief:

- What is one thing you learned about your group member(s)?
- Did the numbers make it easier to talk about yourself? Why/why not?
- How was your attitude? Did it change as the activity went on?
