

## Driving Question Tubric 2.0

As a follow-up to last week's Driving Question webinar, here is a hands-on tool-the "Tubric" for use in designing and/or writing driving questions:

**What is it?** The DQ Tubric 2.0 helps you practice writing Driving Questions by framing initial words, person or entity, action or challenge, and audience/purpose.

**Why do we like it?** The Tubric is a fun, hands-on way to practice the often-challenging task of writing a Driving Question for a project.

**How can you use it?** Use the Tubric in professional development or collaborative planning time to help you and your colleagues design effective projects.
